DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a composition comprising conductive carbon and a corrosion inhibitor, classified in class 252, subclass 500.
 - II. Claims 10-20, drawn to a composition comprising a base and a corrosion inhibitor, classified in class 106, subclass 14.05.
 - III. Claims 21-27, drawn to a method to reduce the dissolution from a metallic surface, classified in class 106, subclass 14.05+.
 - IV. Claims 28-37, drawn to a method to stabilize or recover a corrosive composition, classified in class 252, subclass 387.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, functions and effects. The particulars of Group I are not required by the other Groups as Group I requires conductive carbon whereas Group II requires a base and Groups III and IV require neither conductive carbon or a base. The method steps of Group III are not required or a different from Group IV. Accordingly the inventions have different modes of operation, functions and effects.

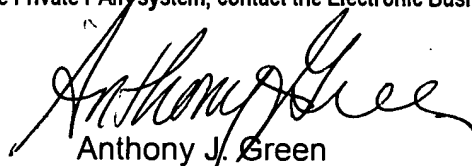

Art Unit: 1755

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
